

Packstat PS491 is designed for applications where a flame-retardant requirement of the tape or the building component is required. The acrylic core allows for the compensation of thermal elongation and good adhesion on different substrates.

PRODUCT BENEFIT

- Flame retardant
- Halogen-free
- High performance adhesive
- Flame retardant according to FAR 25.853(a) app. F part1 and UL 94 V-2

Main Applications

- Possible for mounting applications in different industries:
- Windows & doors
- Elevator
- Transportation
- Marine
- Automotive

Product Properties	Unit	Nominal Value
Thickness	µm	800
Type of Liner	N/A	PE-coated paper
Backing Material	N/A	Filled Acrylic
Type of Adhesive	N/A	Pure Acrylic
Colour	N/A	White
Temperature Resistance Long Term	°C	100
Temperature Resistance Short Term	°C	200
Adhesion to Steel (After 3 days)	N/cm	32
