

Packstat P588 is a transparent double-sided tape with a PET-backing. One side is equipped with a silicone adhesive, and the other side is equipped with a modified acrylic. It's designed for the demanding applications where silicone materials must be bonded to other non-silicone substrates.

PRODUCT BENEFIT

- Excellent bonding properties of the silicone adhesive especially to silicone or silicone containing substrates
- Excellent bonding properties of the acrylic adhesive to a wide range of materials
- Very good handling performance in converting processes
- Great resistance to demanding environmental conditions

Main Applications

- Excellent bonding properties of the silicone adhesive especially to silicone or silicone containing substrates
- Excellent bonding properties of the acrylic adhesive to a wide range of materials
- Very good handling performance in converting processes
- Great resistance to demanding environmental conditions

Product Properties	Unit	Nominal Value
Backing material	n/a	PET
Colour	n/a	transparent
Total thickness	µm	115
Type of adhesive (easy release)	n/a	silicone
Type of adhesive (tight release)	n/a	tackified acrylic
Type of liner (easy release)	n/a	PET film
Type of liner (tight release)	n/a	coated paper
Elongation at break	%	75
Tensile strength	N/cm	50
Temperature resistance short term	°C	150
Static shear resistance at 23°C	n/a	very good
