

Packstat PS358 is a double-sided repulpable tape consisting of a tissue paper backing and a modified water-soluble acrylic adhesive.

PRODUCT BENEFITS

- Highest tack properties
- Very good adhesion values on coated and uncoated papers
- Good shear strength
- Good repulpability over full pH-range (pH3 –pH9)

Main Applications

- Flying splices in the printing and paper producing industry.

| Product Properties | Unit | Nominal Value |
|--------------------|------|---|
| Backing material | - | non-woven |
| Total thickness | µm | 90 |
| Type of adhesive | - | Repulpable tackified acrylic |
| Type of liner | - | Repulpable siliconised paper |
| Colour | - | Blue, Colourless |
