

**Packstat PS358** is a double-sided repulpable tape consisting of a tissue paper backing and a modified water-soluble acrylic adhesive

### Product Benefits

- Highest tack properties
- Very good adhesion values on coated and uncoated papers
- Good shear strength
- Good repulpability over full pH-range (pH3 –pH9)

### Main Applications

- Flying splices in the printing and paper producing industry.

Product Properties	Unit	Nominal Value
Backing material	-	non-woven
Total thickness	µm	90
Type of adhesive	-	repulpable tackified acrylic Type of liner
Type of liner	-	repulpable siliconized paper
Colour	-	blue, Colourless
