

Packstat PS492 is a flame-retardant film tape for permanent mounting. The tape comprises of a proprietary flame-retardant acrylic adhesive and PET-film backing with excellent flexibility and converting properties.

Product Benefits

- Proven flame-retardant characteristics according to UL 94 V-0
- Free of halogens and antimony-trioxide (REACH and ROHS conformity)
- Excellent adhesion characteristics on a variety of surfaces
- High flexibility and converting properties

Main Applications

- Building Industry
- Elevators
- Automotive
- Appliance
- Marine
- Trains

Product Properties	Unit	Nominal Value
Thickness	µm	200
Backing Material	N/A	PET
Type of Adhesive	N/A	FR Acrylic
Static Shear Resistance at 23°C	N/A	Very Good
Colour	N/A	Transparent
Adhesion to Steel (Initial)	N/cm	9
Adhesion to Steel (After 14 days)	N/cm	12
