

Packstat PS023 is a thin and flexible masking tape comprised of a fine crepe paper backing and a natural rubber adhesive. The natural rubber adhesive provides an excellent adhesion to multiple surfaces, like metal, rubber, glass and plastic.

Product Benefits

- Resistant to wet sanding.
- The masking tape is suitable for a wide range of general masking applications without or with subsequent oven-drying up to a temperature of 80°C.
- The fine crepe paper backing is flexible and conformable and is easy to tear by hand.
- Paints and fillers adhere well to the reverse side, preventing any kind of flaking

Main Applications

- A flexible masking tape used for spray-painting, painting, and varnishing applications
- The masking tape has excellent holding power on various surfaces
- The tape is suitable for oven-drying with temperatures of up to 80°C
- Ideal for lacquering work
- Good flexibility for curves
- Can be used on painted metal, rubber, glass and chrome parts
- The tape is easy to remove and is hand-tear able.

Product Properties	Unit	Nominal Value
Thickness	µm	140
Tensile Strength	N/cm	30
Adhesion to Steel	N/cm	3.3
Temperature resistance	°C	80
Elongation at break	%	10
